Town of Brookhaven Industrial Development Agency

1 Independence Hill,

Farmingville, NY, 11738

To whom it may concern:

Amneal Pharmaceuticals has been conducting business in Long Island for 10 years. Amneal operates three facilities in Suffolk County with a total of 670,000 sq.ft., including manufacturing plants (Hauppauge and Brookhaven) and additional Warehouse in Commack. The majority of our activities are in the Brookhaven location, where we have built a 365,000 sq.ft. extension to accommodate additional business. The latest addition completed in 2017 created hundreds of jobs opportunities for the Long Island community, and opportunities for a large variety of local businesses such as contractors and suppliers.

As result of the extension, the Amneal Brookhaven facility grew to almost 800 employees, from about 150 originally. As part of our long term business plan, Amneal teamed up with Suffolk County Community College in order to create a tailored course to prepare local residents for pharmaceutical manufacturing.

Due to business dynamics, our Brookhaven facility required even more manufacturing space. The fastest way to accommodate this process was to build additional manufacturing rooms into the existing Warehouse. We extended the manufacturing areas approximately 26,000 sq.ft.. This process created warehousing storage constraints. In April, Amneal was required to surrender 12,000 sq.ft of Warehouse Space in our Commack location. Also 28,000 sq.ft. is due to be handed over to the owner during this summer, a total of 40,000 sq.ft.

Amneal also intends to transfer manufacturing of multiple products from our Hayward, CA facility to the Brookhaven facility.

Leasing 83,000 Sq.ft. of Rechler's building will accommodate storage for our existing inventories, and also the site manufacturing transfer from California.

We appreciate the Town of Brookhaven's IDA support, and we look forward to a long term relationship.

Sincerely,

A handwritten signature in black ink, appearing to read "Miguel Gomez", is written over the printed name.

Miguel Gomez,

Sr.VP, Tech Operations
