**Additional Comments from IDA**

Applicant proposes installation and operation of a 150 MW battery energy storage system on 4.4 acres on Weeks and South Street in Manorville. As per the IDA's Uniform Project Evaluation Criteria Policy, the criteria met for this project include, but are not limited to, capital investment by the applicant and advances in energy transmission goals. In addition this project helps to advance NYSErDA’s CLCPA requirement of 1,500MW of energy storage by 2025 and 3,000 MW of energy storage by 2030.

Does the IDA believe that the project can be accomplished in a timely fashion? Yes

Chief Executive Officer

Re: Application of CD Ramsay Realty, LLC/
Creative Biomart, Inc., Creative Biolabs Inc., Creative Biogene Inc.,
CD Biosciences Inc. and BOCSI Inc. (the “Companies”)
17 Ramsay Road, Shirley, NY

Dear Ms. Mulligan:

I am pleased to enclose one original and one copy of my client’s application for financial assistance through the Town of Brookhaven Industrial Development Agency. The application contemplates a “straight lease” transaction for the construction of a new, approximately 18,500 square foot freestanding industrial building located at 17 Ramsay Road, Shirley, NY (the “Premises”). The total “Project” is estimated to total approximately $4,935,000.00, which funds are being paid entirely by the Companies, and no mortgage financing is being sought.

Creative Biolabs Inc. (and its affiliates”) primary business is the manufacturing and distribution of biologic proteins for the biotech industry. They supply high quality recombinant proteins, antibodies, antigens, enzymes and ELISA assays to the researchers in biology, clinical research, molecular diagnostics and biopharmaceutical drug development and related fields. Its affiliate, Creative Biogene Inc. offers various biopharmaceutical products, including antibacterial pharmaceutical products, biopharmaceutical products, oncology products, vaccines, etc. BOCSI Inc. offers personalized solutions for the conjugation of small molecules such as drugs, metabolites and labeled compounds with synthetic or natural compounds for specific applications.

The Companies presently employ 30 full time individuals and the Project will result in the retention of all of those jobs plus the creation of 8 new full time jobs upon the second year of the completion of this Project. The applicant has a separate, existing facility on the same land, which consists of an approximately 11,800 square foot building. That building was part of an IDA Project from 2018. As part of that Project, the Company projected the employment of 17 retained jobs and 5 new FT jobs within a two year period. That estimate of 22 total FT jobs grew to the existing 30
now employed amongst the entities listed above (and as reported to the Agency) and this new Project will add yet an additional 8 thereto.

This new facility to be constructed on the same land and site (but as a separate building) will assist the Companies by allowing the construction of an additional laboratory and related facilities, which will in turn assist in the expansion of their existing businesses, while allowing them to manufacture and test the products they currently sell and distribute. This additional space will give the Company added production capacity and the ability to immediately grow their company. The Company deems it impractical to expand the existing building due to the layout of the building where an addition could be affixed and the potential interruption of the existing processes.

The Company requires approximately 30,000 sq. ft. of very specialized space in order to continue its operations and projected expansion. If it could not do this separate Project, it would need to locate and relocate its entire existing facilities elsewhere, including sourcing such specialized properties outside the State of New York. Its products are distributed nationally, and, as such, there was no specific or exclusive need to retain its location in the Town of Brookhaven or State of New York; rather, however; the Company would prefer to avoid the time and expense of relocation and pursue the proposed Project in its existing location. It is for those reasons that, with the assistance of the TOBIDA, and the granting of benefits, including a 100% abatement on the improvements under the PILOT Agreement, as well as sales tax exemptions on its anticipated taxable equipment acquisitions, that this Project would make economic sense to the Company. As noted above, the Company’s prior employment projections were far exceeded, and will continue to grow and prosper with the Agency’s assistance.

Inasmuch as the Company is only in its third year of the existing PILOT on the prior Facility, and this new building will be constructed on the same tax lot, we would respectfully request, for ease of calculating and securing real estate tax exemptions, that the existing Lease and Project Agreement be amended to extend its term of PILOT benefits to run concurrently with the period of exemption for this new phase of Project.

As such, we would request that the Agency issue a resolution approving (a) the Project; (b) PILOT benefits providing for a 100% abatement against the improvements for a term of ten years; (c) an extension of the PILOT for the prior Project to run concurrently with the PILOT for this new Project; and (d) sales tax exemptions in favor of on the estimated $400,000.00 worth of equipment, furnishings and fixtures to be expended by Creative Biolabs Inc., plus sales tax exemptions on approximately $2,100,000.00 on the portion of the construction attributable to building materials, for a total sales tax exemption of approximately $215,625.00 (broken up $181,125.00 to CD Ramsey Realty, LLC- who will construct the building, and $34,500.00 to Creative Biolabs Inc.- who will acquire the equipment.

In connection with this application, I have enclosed my client’s check in the amount of $3,000.00, representing the application fee in this regard. I have also enclosed two years tax returns for each of the Companies (inasmuch as financial statements are not available), as well as NYS-45’s for each of the affiliated Companies for the quarter ending June 30, 2022, all of which should be kept confidential and not made a part of the public record.
Since this is new construction, an Environmental Assessment Form will be prepared by their architect, James Manicone, and sent to you under separate cover.

If you should require anything further, please don’t hesitate to contact the undersigned.

Very truly yours,

ANDREW PRESBERG

RE: Applicant: BLSF, LLC (dba “Brookhaven Landfill Solar Farm, LLC”)  
Application: Brookhaven Town Industrial Development Agency  
Premises: 350 Horseblock Road, Yaphank, NY 11719

Dear Ms. Mulligan,

On July 7, 2022, BLSF, LLC, a limited liability company formerly owned by i.on renewables, LLC, entered into a thirty (30) year agreement (the “Lease”) with the Town of Brookhaven to lease approximately thirty (30) acres of land at the landfill located at 350 Horseblock Road, Yaphank, NY 11719 (the “Premises”) to develop and construct photovoltaic solar arrays (the “System” or the “Project”).

BLSF, LLC has received two awards totaling six (6) MW-ac capacity from Public Service Enterprise Group Long Island (“PSEG LI”) under the “Solar Communities Feed-In-Tariff Program”, whereby PSEG LI will purchase energy produced by the System. The proposed Project as currently designed will consist of approximately 16,000 solar modules with a capacity of 540 Watts, totaling 8,640,000 MW-dc. A site plan that shows the proposed location of the solar facility has been attached to this application.

As of October 21, 2022, i.on renewables, LLC has sold its Membership Interests in BLSF, LLC via Membership Interest Purchase Agreement to Coast Energy DevCo, LLC, a project company owned by Coast Energy, LLC.

Coast Energy is an investment company located in Manhattan Beach, California that develops, constructs, owns and operates solar assets throughout the United States. The Chief Executive Officer of Coast Energy is Blair Herbert, who has been making investments in the solar energy industry since 2008. Collectively, since 2008, Mr. Herbert and Coast Energy and its management team have helped to develop over 2,000 solar projects totaling more than 1 GWs.

i.on renewables will remain intimately involved with the development and construction of the solar project until it has been completed and successfully interconnected to the grid. Specifically,
i.on renewables will continue to serve as the main point of contact for all interactions with the Town and the IDA of Brookhaven to coordinate development, construction and legal requirements to complete the project.

Coast Energy and i.on renewables will continue to work steadfastly to complete all development activities on the project, initiate construction and achieve commercial operation for the project under discussion.

If you should have any further questions, please do not hesitate to contact me. We look forward to working with the Town and the IDA of Brookhaven to construct the Project.

Thank you.

Re: Global Food Solutions, Inc.’s Application for Financial Assistance

Dear Ms. Mulligan:

Please find enclosed Global Food Solutions, Inc.’s (the “Applicant” or “GFS”) Application to the Town of Brookhaven Industrial Development Agency (the “IDA”) for benefits regarding GFS’s acquisition, addition, and operations at 905 Waverly Avenue, Holtsville, New York 11742 (the “Property”). This Property will allow GFS to consolidate and expand its operations under one roof. GFS currently owns its corporate headquarters (via special purpose entity 159 Adams LLC), located at 159 Adams Avenue, Hauppauge, New York 11788, and leases its manufacturing/distribution space, which is located at 50 Constance Court, Hauppauge, New York 11788. The sale of GFS’s headquarters will allow for the opportunity to conduct a §1031 transaction, as we are seeking to invest all of the equity in the current headquarters into the Property. Our goal with this acquisition is to position GFS for further success and long-term growth, while establishing our home base of the future in the Town of Brookhaven.

GFS is a privately owned family business that was conceived by father and son team Michael Levine and Mitchell Levine to tackle the two parallel crises that the United States is experiencing related to food and public health: (i) hunger; and (ii) diet-related diseases. In 2020, one in ten households (more than 38 million Americans) experienced food insecurity. One in seven American children (approximately 11 million) live in homes where there is, at best, inconsistent access to adequate healthy food. As a result, American children are struggling with hunger, and there is a growing epidemic of diet-related diseases among adults in the United States, which unfortunately starts from habits formed during childhood.

GFS is devoted to developing, manufacturing, and distributing affordable, wholesome, and sustainable food products for the school food service and general food service industry. We are advocates for feeding our children and ensuring that our country's future remains vibrant and healthy. In 2022 we were fortunate to receive our second Inc. 5000 award for our role as one of the fastest-growing private businesses in the United States.
GFS’s primary market is servicing the K-12 food service industry with our various products under GFS’s seven brands. GFS currently services many of the largest school food service programs in the Northeast United States, as well as a number of school food service programs throughout the country. These customers include, but are not limited to, the: (i) New York City Public Schools; (ii) Long Island Co-Op (over 70 districts); (iii) Philadelphia Public Schools; (iv) Bridgeport (Connecticut) Public Schools; (v) Boston Public Schools; and (vi) Raleigh (North Carolina) Public Schools. GFS has grown into a powerhouse in the space, and currently reaches over 7,500 school districts with our various products and brands. Additionally, GFS services other food service accounts ranging from hospitals and outpatient healthcare facilities to the Armed Forces of the United States (domestically and abroad).

GFS’s products feature a variety of nutritional attributes across the breadth of our brands and product types, with many of our products and raw materials being sourced domestically. All of our products are made in accordance with strict industry nutrition and compliance standards, and many feature no artificial colors and/or flavors, are peanut/tree nut free, made with whole grains, and never incorporate ingredients listed on our prohibited ingredient list. In response to the COVID-19 global pandemic, GFS expanded rapidly by producing products under the brands the company had grown by utilizing a network of co-packing manufacturing facilities across the United States. GFS worked quickly across its supply chain to establish and identify multiple facilities in its network to produce grab-and-go meal kits, and opened its first manufacturing facility in Hauppauge, New York as a result of this explosive growth. This facility is now located down the street from the GFS' corporate headquarters in Hauppauge.

The current manufacturing facility utilized by GFS features refrigeration, a freezer, and dry storage. The GFS team converted two portions of the facility into food manufacturing spaces, with one space featuring three manufacturing lines, with two manufacturing lines being utilized to assemble our grab-and-go meal kits. One line assembles GFS’s grab-and-go meal kits that are used primarily for the School Breakfast Program (“SBP”), and the other production line assembles components for our SBP pre-packed yogurt parfaits. GFS successfully converted the additional manufacturing space into a sandwich operation, and is currently under contract to produce over four million sandwiches for the 2022/2023 school year under the United States Department of Agriculture’s Commodity Foods Further Processing Program, which are primarily used in the National School Lunch Program (“NSLP”).

As a result of this tremendous growth, GFS hired over twenty-five (25) new manufacturing and production personnel in roles ranging from our director of quality control to our production staff, warehouse equipment staff, and skilled technicians. In 2022 we find ourselves continuing on this growth trajectory and are being asked by our current school district customer base to continue to expand our offerings and products for their programs. However, due to our rapid growth, we have simply out of space and are unable to continue our expansion, which will result in millions of school children here in New York (and throughout the country) not being exposed to our “better for you” offerings.
As we continue to expand our manufacturing capabilities and service millions of American students, we find ourselves with an opportunity to continue our growth at the Property, which is approximately 15 minutes from the company's current locations. However, GFS will be unable to maintain this momentum without the IDA’s assistance due to Suffolk County’s burdensome real estate taxes and acquisition costs, which real estate taxes and acquisition costs make GFS’s project financially oppressive. In order for GFS to remain competitive in the space and continue to create good paying jobs on Long Island in a financially viable manner, we respectfully request the IDA’s assistance with benefits relating to real estate taxes and sales & use taxes for the Property.

We look forward to a continued dialogue with the IDA Board of Directors to review the project together and address any questions you may have regarding the Property. Thank you kindly in advance for your time and consideration.

Very truly yours,

GLOBAL FOOD SOLUTIONS, INC.

Attention: Demetrios Tsunis, Managing Member

RE: Town of Brookhaven Industrial Development Agency
(Middle Country Meadows, LLC 2021 Facility)

NOTICE OF DEFAULT

Dear Mr. Tsunis:

This letter is to notify Middle Country Meadows, LLC (the “Company”) of their failure to provide proof of current builder’s risk insurance and general contractor insurance to the Town of Brookhaven Industrial Development Agency (the “Agency”), as required by Sections 6.4 and 6.5 of the Lease and Project Agreement, dated as of December 1, 2021 (the “Lease Agreement”), between the Agency and the Company. Capitalized terms not otherwise defined herein shall have the meanings given thereto in the Lease Agreement.

Pursuant to the Lease Agreement, the Agency agreed to provide financial assistance to the Company in connection with its construction, equipping, and furnishing of an approximately 136,400 square foot residential facility (the “Project Work”) located at 1277 Middle Country Road, Selden, New York.

Section 6.4(a) and (d) requires the Company to cause the general contractor of the Project to obtain workers’ compensation and employer’s liability coverage (the “Requisite Insurance”). Section 6.5(c) of the Lease Agreement requires the Company to deliver certificates of insurance evidencing such insurance coverage to the Agency prior to the commencement of the Project Work.
By e-mails dated January 4, 2022 and March 23, 2022, which e-mails are attached hereto as Exhibit A, and again by e-mail dated August 3, 2022, attached hereto as Exhibit B, a representative of the Agency reminded a representative of the Company that evidence of the Requisite Insurance must be submitted to the Agency prior to the commencement of the Project Work. The Company did not respond with evidence of the Requisite Insurance after any of the above referenced e-mails, or after several follow up communications from the Agency’s counsel.

It has now come to the Agency’s attention that the Project Work has begun, and the Company has still not submitted proof of the Requisite Insurance to the Agency.

Section 10.1(a)(ii) of the Lease Agreement states an Event of Default includes “the failure by the Company to observe and perform any covenant contained in Sections 2.2(e), (f) or (i), 5.2, 6.3, 6.4, 6.5, 8.2, 8.4, 8.5, 8.11, 8.12, 9.3, 10.4 and Article XIII hereof;”

In the case of an Event of Default, Article 10.2(a)(ii) of the Lease Agreement, authorizes the Agency to terminate the Lease Agreement and the Company Lease, reconvey the Equipment to the Company and terminate the Sales Tax Exemption authorization.

In addition, failure to provide evidence of the Requisite Insurance is a Recapture Event under Section 5.4 of the Lease Agreement, requiring the Company to pay to the Agency 100% of all financial benefits derived by the Company as a result of the Agency’s participation in the Project (the “Recapture Amount”).

By way of this letter, the Agency demands that you immediately cease and desist the Project Work, and provide evidence in full of the Requisite Insurance by November 14, 2022. Failure to do so will result in the Agency immediately terminating the Lease Agreement and the Company Lease, reconveying the Equipment to the Company, terminating the Sales Tax Exemption authorization, and declaring 100% of the Recapture Amount immediately due and payable.

Very Truly Yours,

Lisa M. G. Mulligan

Hi Lora-

An automobile policy is required. The project may already have the policy, please consult your insurance broker. I have attached the Middle Country Meadows Insurance Requirement section (6.4) from the Lease and Project Agreement. In addition to the automobile policy, please provide:

1. Workers Compensation
2. Disability
3. Property (Builder’s Risk)

The property is in the clearing stage. Prior to construction, please provide all insurance certificates from the general contractor.

Thank you,
Amy

Brookhaven IDA

Dear Supervisor Romaine, Brookhaven Town Council and IDA CEO Mulligan and IDA Board,

We are asking the Brookhaven Industrial Development Association (IDA) to reject the tax exemption application of BLSF, LLC (I.on Energy). We fully support large scale renewable energy projects as a requirement for a just transition away from fossil fuels and to support climate justice. Frontline communities harmed by the Brookhaven Landfill’s air, water and soil pollution for the past 50 years, should be at the center of any plans for the Brookhaven Landfill. Landfill redevelopment and remediation plans should be transparent, participatory, inclusive, collaborative and community-driven.

The following questions should be addressed in a public venue with our elected officials prior to consideration of this tax exemption.

1. **COST** What is the cost of this 30 year tax exemption to South Country School District? Why is it fair that the developer can pay a significant lease to the Town of Brookhaven, but cannot pay any property taxes to the South Country School District - a majority-minority majority-economically disadvantaged NYS Target district? The IDA Cost Benefit Analysis (CBA) provided with the application does not accurately delineate the cost of this proposed tax exemption to the South Country School District. The CBA states that the cost of this property tax exemption is $0. This is incorrect. I.on energy is a private for-profit corporation leasing Town land for a private solar array which will generate private profit. Under Real Property Tax Law (RPTL), Town land used for these purposes is taxable. For it to be not taxable “Property must be held for a public use”—meaning a use that is of benefit to the community at large (see definition in note below). This requirement is satisfied if the property is devoted to use by the general public or public agencies. Land or improvements, as well as portions thereof, which are leased to a private individual or organization are exempt so long as they are held for a public purpose. **Conversely, if land or improvements, or portions thereof, are leased to a private individual or concern and used for nonpublic purposes they are subject to taxation for all purposes.”** (Emphasis added) https://www.tax.ny.gov/research/property/assess/manuals/vol4/pt1/sec4_03/sec406_1.htm.

Unfortunately there is a pattern of the Brookhaven IDA using CBAs that underestimate the cost of tax expenditures in the South Country community. A recent example occurred in December 2021 when the IDA inaccurately stated the Nominal Cost of the Winters NP property tax exemption when in fact the amount reported was the Discounted cost (P5 https://brookhavenida.org/files/NP%20Winters/CBA.pdf).

New York State’s Climate Leadership and Community Protection Act (CLCPA) commits NYS by law to 70% renewable energy by 2030 and 100% by 2040. While the local Caithness fossil fuel power plant enjoys an extremely generous tax exemption via the
Brookhaven IDA through 2029, at the end of this tax exemption the facility will likely wind down production to meet the requirements of CLCPA. Unfortunately, our community is losing millions of dollars in tax revenue while Caithness is operating due to IDA exemptions, and our community will continue to lose millions in tax revenue after 2030 if large scale renewable projects like BLSF/I.on are also exempted by the Brookhaven IDA. If there is money to pay the Town of Brookhaven a hefty lease payment, there is money for property taxes to support the South Country School District.

2. **COMPETITION** Why was the 30 acre site non-competitively leased to I.on Energy? Communication between the Town of Brookhaven FOIL Officer and Town Clerk Donna Lent stated on August 24, 2021 that “I.on won the award under a bid issued from LIPA” yet when we reached out to LIPA’s Deputy General Council James Miskiewicz he clearly stated that LIPA did not select I.on to develop this site. I.on applied for and was accepted under the Feed-In-Tariff (FIT) program. There was nothing precluding the Town of Brookhaven from using a competitive process that would allow other potential developers to apply for a LIPA Feed-In-Tariff award and potentially offer more competitive terms for Brookhaven residents. The concerns over this non-competitive process translate to the other FIT awards I.on energy received for private solar projects on public Town of Brookhaven land including Brookhaven’s Pennysaver Amphitheater Car Ports, the Mastic Beach Aquatic Center, the Holtsville Ecology Center and the Moriches Sports Complex Car Ports.

3. **COMPREHENSIVE PLANNING** Why is a piecemeal development process being used for this site? The site should be developed through a comprehensive planning process - to have two unrelated solar projects on the landfill site is not efficient nor is it comprehensive planning. In the site plan below, the blue area is the existing leased area for the proposed I.on Energy’s private solar project. The yellow area is another potential solar field currently subject to a Memorandum of Understanding (MOU) under
4. REMEDIATION How does this proposal affect the possibility of landfill remediation? The Town of Brookhaven refuses to have any public discussions or make any information publicly available regarding landfill remediation. In 2017 hazardous PFAS chemicals were found in high levels in both leachate and groundwater monitoring wells; subsequent Department of Health testing found contamination in downstream private wells, repeat testing in 2022 confirmed the presence of PFAS in both leachate and groundwater. Communications from August 2022 with Councilman Loguercio and Brookhaven Town Recycling and Sustainable Management Commissioner Fetten show that the Town refuses to disclose its plume remediation plan, nor will the Town disclose how many residential and agricultural private wells continue to draw water from the plume.

5. COMMUNITY COMMITMENTS Why are the needs in our diverse community, and the previous promises about the future of the landfill site being ignored? When the landfill was sited by the New York State Environmental Facilities Corporation in the 1970s, there was a public commitment to transform the landfill into a recreational park. There is no discussion of how these solar arrays honor these prior public commitments.
From a dump of sorts to a spot for sports

While it’s true that the phrase "from a dump of sorts to a spot for sports" might seem like an oxymoron, there’s actually a fascinating story behind this transformation. The site in question is Battery Park in New York City, which has been repurposed from a landfill into a popular recreational area.

The history of Battery Park begins with the landfill, which was created in the 19th century to expand the city’s waterfront. The land was used as a garbage dump and was considered a polluted area. However, in the mid-20th century, the city began to consider turning the landfill into a park.

The process involved dredging the land and removing 600,000 cubic yards of material. The resulting landmass was then landscaped and transformed into a park with various amenities, including gardens, playgrounds, and walking paths. The park has since become a popular destination for both locals and tourists.

This transformation is just one example of how cities can repurpose former landfill sites into valuable public spaces. It serves as a reminder that even the most unexpected sites can be transformed with careful planning and effort.

COMMUNITY BENEFITS

The IDA hearing notice suggests that this solar array is “for the benefit of low and moderate income customers” but there is no information about income-targeted benefits in the Feed-In-Tariff application obtained by FOIL from LIPA, nor is there any information on any income targeted commitments in the IDA application. There is no commitment to train nearby residents for these green jobs.

ZONING

The Ion Energy application states that this project meets zoning requirements at its current location. However, the landfill area under consideration is currently zoned residential. See “Town of Brookhaven § 85-813 Solar energy production facilities. A. Permitted locations. (1) A solar energy production facility may be permitted as a principal use or accessory use in any L Industrial 1, L Industrial 2, J Business 2, J Business 5 and J Business 4 District when authorized by special permit from the Planning Board subject to the requirements of § 85-813B and § 85-107 of this chapter. Nothing herein shall supersede or limit any other code section contained within this chapter that may pertain to solar energy production facilities. No solar energy production facility shall be located in the areas listed in Subsection A(2) below unless a special permit is granted by the Town Board. Said uses shall be subject to the criteria as set forth in Article VI, § 85-68.” It does
not appear that a solar energy production facility of this size is permitted under residential zoning.

8. **CONFLICT OF INTERESTS** IDA Board Member Felix Grucci is listed on his LinkedIn site as an officer of the company Starlight Properties which owns land across the street from 350 Horseblock Road. This was confirmed by IDA Chairman Braun in the March 16th minutes of the IDA (available here p14 https://brookhavenida.org/files/3-16-22%20IDA%20Minutes.pdf). If this remains the case, this should be disclosed as a conflict of interest prior to the IDA considering this application, and Mr Grucci should recuse himself from this project. If this was true at the time of the Winters NP application before the IDA, Mr Grucci should have also recused himself from the Winters NP project which is located adjacent to property owned by Starlight Properties, and ultimately received almost $80M in tax exemptions from the IDA.

Dear Supervisor Romaine, Brookhaven Town Council and IDA CEO Mulligan and IDA Board,

After the news that “the agency was informed that the membership interest in BLSF, LLC is being sold to Coast Energy Dev Co, LLC, which is a project company owned by Coast Energy, LLC.,” we continue to ask the Brookhaven Industrial Development Association (IDA) to reject the tax exemption application of this project. All our concerns submitted during the initial BLSF public hearing remain and have not been addressed by the IDA and we are resubmitting that September letter along with this letter.

We fully support large scale renewable energy projects as a requirement for a just transition away from fossil fuels and to support climate justice. Frontline communities harmed by the Brookhaven Landfill’s air, water and soil pollution for the past 50 years, should be at the center of any plans for the Brookhaven Landfill. Landfill redevelopment and remediation plans should be transparent, participatory, inclusive, collaborative and community-driven.

In September, we wrote requesting the IDA information on the cost of this 30 year tax expenditure to the South Country School District. The CBA states that the cost of this property tax exemption is $0. This is incorrect. BLSF/Coast Energy is a private for-profit corporation leasing Town land for a private solar array which will generate private profit. The September 27th 2022 minutes re-interate this with Nixon Peabody’s Mr Weir stating “once you put a commercial project on a Town property, it would be subject to taxation.” In October, I emailed CEO Mulligan requesting information on the cost of this tax expenditure, my request was denied and further questions regarding why were ignored. This is not the action of a professional transparent public agency (see thread below).
If the BLSF tax exemption cost was ever calculated, could I request that via FOIL please.

No.

Why not?

If there is money to pay the Town of Brookhaven a hefty lease payment, there is money for property taxes to support the South Country School District.

The IDA hearing notice suggests that this solar array is “for the benefit of low and moderate income customers” but there is no information about income-targeted benefits in the Feed-In-Tariff application obtained by FOIL from LIPA, nor is there any information on any income targeted commitments in the IDA application. There is no commitment to train nearby residents for these green jobs. When we reached out to CEO Mulligan re income-targeted benefits, she cited a June 24th letter to the IDA by BLSF’s Mr Prokopy noting “The output from the Project will be credited to eligible low- and moderate-income customers, who as a byproduct of the System’s operation will receive a discount on their electric bill each month”. Prior LIPA FOIL request re i.on energy did not result in any information surrounding income targeted benefits. After receiving CEO Mulligan’s note we re-requested information from LIPA and in the past month since the FOIL was acknowledged LIPA has been unable to provide documentation surrounding income targeting. Now that Mr Prokopy is selling his membership interest in BLSF, LLC to Coast Energy Dev Co, LLC, we request the IDA please outline how the solar benefit will be targeted to low and moderate-income customers and how this will be memorialized and enforced. What incomes qualify as low and moderate-income to benefit from this solar program?

Our September letter brought up concern regarding Mr Grucci’s potential conflict of interest as he has an interest in a company (Starlight Properties) which is listed as owning land across the street from 350 Horseblock road, confirmed by IDA Chairman Braun in the March 16th minutes of the IDA (available here p14 https://brookhavenida.org/files/3-16-22%20IDA%20Minutes.pdf).
If this remains the case, this should be disclosed as a conflict of interest prior to the IDA considering this application, and Mr Grucci should recuse himself from this project.

In addition, Ms Eaderesto should have disclosed her role and potential conflict as both IDA attorney at $300/hr and as a salaried Town of Brookhaven attorney for which she earns over $150,000/year.

When IDA Board Members Mr Pally and Mr Trotta asked questions about whether there “is any way” the project could pay school taxes Ms Eaderesto, according to 9/27 IDA minutes, stated “this particular project, taxing it would be cost prohibitive, it would make this project not viable”. She provided no detail why the Town of Brookhaven must be kept whole with its lease payments while the South Country School District gets zero dollars for the next thirty years. The IDA is robbing one taxing jurisdiction of future taxes for thirty years - the South Country School District - and paying the Town of Brookhaven this balance via lease payments which are otherwise higher than if the project paid property taxes. Ms Eaderesto appears to steer the IDA board away from negotiating any PILOT payments for the South Country school district, yet fails to disclose that by waiving property taxes, the Town of Brookhaven is able to negotiate lease payments worth millions over the course of the BLSF lease. My October 3rd request to CEO Mullligan for “agreements or contracts which define/govern [Ms Eaderesto’s] relationship to the IDA via FOIL was ignored by the IDA (I was only provided a 1/22 resolution stating that Ms Eaderesto is agency counsel), as was my October 27th inquiry asking again if there is a contract governing/outlining Ms Eaderesto’s responsibilities. Ms Eaderesto appears to be in violation of the IDA’s Conflict of Interest Policy and I am requesting the IDA formally investigate this potential violation of IDA policy. The South Country School District is a majority minority majority economically disadvantaged NYS target district. Recent NYS test scores highlight the discrepancies between district students and both Suffolk and NYS scores, as well as major discrepancies across sub-groups of students. South Country is a high need school district which deserves its fair share of property taxes - especially in the case of this project which can afford to pay millions to the Town of Brookhaven over the lease period, yet leaves South Country kids and taxpayers with three decades of zero financial contribution.
Best,

Kerim Odekon
Abena Asare
To the IDA,
Once again I am finding the Town of Brookhaven IDA being short sighted and having no regard for quality of education of the students of South School district and no humanity when it comes to the health of the community that has been burdened by the landfill for 50 years.
While I understand that the purpose of the IDA is industrial development any informed, compassionate human would consider the ramifications on the community of slapping a solar farm on a toxic dump without asking about remediation and then offer the company tax breaks that effect a school district that already has a deficit.
I realize that appealing to (most in the towns goverment) concern for the already overburned community is often a futile exercise, I won't give up.
Sincerely

Re: Solar project Coast Energy Dev Co, LLC

I ask that the application tax breaks be withdrawn and or denied by the Brookhaven Industrial Development Association (IDA) for the tax exemption application of Coast Energy Dev Co, LLC.

Since we are again meeting to give tax breaks for a project that does not specifically plan to benefit the community proportionately to the disproportionate harm that the north Bellport community has faced for nearly 50 years from the landfill and other polluting factors in the area. I am submitting a similar letter as I did before because all are still true.

1. Our School - I am a community member of the South Country Central School District finance and facilities advisory board, an alum, both my parents were/are alums, my son is an alum and a host of my family members past and present. I say that to say that the school is near and dear to my heart! Our school is in fiscal crisis right now. We have a million dollar deficit that we have asked the community to bear. It is absurd for this Brookhaven IDA body to continue to take taxes from a school in a financial crisis. It is wrong to ask for tax breaks for a community Solar project that the school board, the pla, the finance and facilities advisory board and equity board, the students and others have not had a chance to have a discussion about. If you continue to take from our school it needs to be required that our school body has a chance to review all information pertaining to this request for tax breaks. Our school is diverse and services the area of one of the most diverse areas in the county. We cannot allow our governing bodies to continue to use that diversity when filling out for grants and then take from our diverse struggling school to fund it.

- [] Our Community-the fenceline community of the landfill is overburdened with the mountainous requirement to shoulder the needs of the entire town of Brookhaven without any host considerations. Again our community is diverse with a large Indigenous Black and Latinx community. We have some of the worst health on Long Island, Suffolk County and NYS. Where we have the lowest expectancy on the island, the second highest rates of er visits for asthma, the top 100 percentile in NYS for COPD according to the disadvantaged communities map criteria. At this point we need remediation. From the documents on this request there is no consideration for remediation. This is the second solar project at the landfill and I cannot understand how we can have two solar projects on this landfill without a plan for remediation. We have an active plume found PFAS in our groundwater. When is the time that we reverse these ills? Where is that meeting happening so I can be there?

1. Public Engagement- as touched upon already. This area is a disadvantaged community, a potential environmental justice impact area that requires meaningful public engagement. A public hearing at 10 am on a Friday is not meaningful engagement.

2. There are false promises and false appearances that the community Solar project will be a benefit to our community. But there are no direct promises for North Bellport or South Country Central School District that must stop. North Bellport and the South Country Central School District are in crisis right now today. We need remediation and every dollar available today.

I also stand in support of the comments submitted by Kerim Odekun and Abena Asare.
Lastly, having meetings at the 10 am hour on a Monday morning is absurd and puts community at a disadvantage to engage in this process. This must stop. It seems that all of these meetings that happen so often, overburdens a community already overburdened and has low turn out. This seems to me that the IDA is doing something wrong and needs to change this policy.

Sincerely,
Monique Fitzgerald, she/her

Dear Ms. Mulligan,

As requested, below please find the transcript of the statement I made on behalf of the school district and its Board of Education with regards to BLSF, LLC.

The South Country Central School District is aware of a proposed project, BLSF LLC, to be situated within the District’s boundaries. In that regard we request the Brookhaven Industrial Development Agency consider the potential impact of the project upon the District and its taxpayers and the needs of the school district in its consideration of the request for financial assistance by this for-profit entity. If any benefit to the District, its students or taxpayers may be achieved through this project, we would request the IDA’s assistance in obtaining such benefit. The Board of Education would welcome the opportunity to discuss any such potential benefit that may accrue to the District.

It was good speaking to you today and will follow up with more information regarding the possibility of meeting with our BOE and potentially our legislative committee.

Hope all is well and I will be in touch soon.

Sincerely,

Dear Ms. Mulligan,

I would like to submit the following statement on behalf of the school district and Board of Education to the IDA public hearing scheduled for today, Monday, November 16, at 10:00 a.m.:

The South Country Central School District is aware of a proposed project, Hydro Metal Holdings, LLC and Boilermatic Welding Industries, Inc., to be situated within the District’s boundaries. In that regard we request the Brookhaven Industrial Development Agency consider the potential impact of the project upon the District and its taxpayers and the needs of the school district in its consideration of the request for financial assistance by this for-profit entity. If any benefit to the District, its students or taxpayers may be achieved through this project, we would request the IDA’s assistance in obtaining such benefit. The Board of Education would welcome the opportunity to discuss any such potential benefit that may accrue to the District.

In addition, we would like the opportunity to meet with you and perhaps have you come to our legislative committee meeting so that we can have a better understanding of the IDA and upcoming proposals.

Thank you for the consideration and hope all is well.

Sincerely,

Attn: Lisa MG Mulligan, Chief Executive Officer

Re: Request for Extension of Time
Project: Research Property Holdings, LLC/Biocogent, LLC 2021 Facility

Dear Ms. Mulligan:

As you are aware, this firm represents Research Property Holdings, LLC and its affiliated entity, Biocogent LLC., which acquired the property at 19 Pinehurst Drive, Bellport, NY (the “Property”), with the Town of Brookhaven Industrial Development Agency’s (“TOBIDA”) assistance.

As you may recall, the Property is an existing approximately 11,574 square foot industrial building. Applicant acquired the Property, completed the design of modifications need to the Property that will allow it to execute its business plan, obtained architectural drawings for the modifications, and has begun construction; thanks to the assistance of the TOBIDA. Unfortunately, the Pandemic, the resulting supply-chain issues, and the impact both had on Applicant’s industry has prevented Applicant from acquiring all the equipment it requires for its business and completing the modifications to the building. Pursuant to the Lease and Project Agreement (the “Lease”), that project was supposed to be complete by the end of 2022.

Applicant will not be able to acquire all the equipment it needs and make all the modifications to the Property which it intended to make by the end of 2022. Applicant continues to diligently pursued the acquisition of the equipment and improvements to the Property and hopes to complete it by mid-year 2024; however, due to on-going supply chain uncertainty and economic conditions, Applicant may need more time. By virtue of this letter, we are requesting that TOBIDA extend Applicant’s time to complete the project and use of the sales tax exemption to December 31, 2024.
Fortunately, Applicant’s business prospects remain good and it has already leased an additional building adjacent to the Property to support operations at the Property (which is also being renovated with expected completion date of June 2023) and continues to look for and bid on additional buildings in Bellport to expand its “campus.” This extension will simply allow Applicant to execute on its business plan.

Thank you for your consideration. Should you wish to discuss, please do not hesitate to reach out.

Very truly yours,

Forchelli Deegan Terrana LLP

Part X – Certification

Michael Levine (Name of representative of entities submitting application) deposes and says that he or she is the CEO (title) of Global Food Solutions, Inc., the entities named in the attached application; that he or she has read the foregoing application and knows the contents thereof; and that the same is true to his or her knowledge.

Deponent further says that s/he is duly authorized to make this certification on behalf of the entities named in the attached Application (the “Applicant”) and to bind the Applicant. The grounds of deponent’s belief relative to all matters in said Application which are not stated upon his/her personal knowledge are investigations which deponent has caused to be made concerning the subject matter this Application, as well as in formation acquired by deponent in the course of his/her duties in connection with said Applicant and from the books and papers of the Applicant.

As representative of the Applicant, deponent acknowledges and agrees that Applicant shall be and is responsible for all costs incurred by the Town of Brookhaven Industrial Development Agency (hereinafter referred to as the “Agency”) in connection with this Application, the attendant negotiations and all matters relating to the provision of financial assistance to which this Application relates, whether or not ever carried to successful conclusion. If, for any reason whatsoever, the Applicant fails to conclude or consummate necessary negotiations or fails to act within a reasonable or specified period of time to take reasonable, proper, or requested action or withdraws, abandons, cancels or neglects the application or if the Applicant is unable to find buyers willing to purchase the total bond issue required, then upon presentation of invoice, Applicant shall pay to the Agency, its agents or assigns, all actual costs incurred with respect to the application, up to that date and time, including fees to bond or transaction counsel for the Agency and fees of general counsel for the Agency. Upon successful conclusion of the transaction contemplated herein, the Applicant shall pay to the Agency an administrative fee set by the Agency in accordance with its fee schedule in effect on the date of the foregoing application, and all other appropriate fees, which amounts are payable at closing.

The Applicant hereby subscribes and affirms under the penalties of perjury that the information provided in this Application is true, accurate and complete to the best of his or her knowledge.

SCHEDULE B

CONSTRUCTION WAGE POLICY

EFFECTIVE January 1, 2005

The purpose of the Brookhaven IDA is to provide benefits that reduce costs and financial barriers to the creation and to the expansion of business and enhance the number of jobs in the Town.

The Agency has consistently sought to ensure that skilled and fair paying construction jobs be encouraged in projects funded by the issuance ofIDA tax exempt bonds in large projects.

The following shall be the policy of the Town of Brookhaven IDA for application for financial assistance in the form of tax-exempt financing for projects with anticipated construction costs in excess of $5,000,000,00 per site received after January 1, 2005. Non-profit corporations and affordable housing projects are exempt from the construction wage policy.

Any applicant required to adhere to this policy shall agree to:

(1) Employ 90% of the workers for the project from within Nassau or Suffolk Counties. In the event that this condition cannot be met, the applicant shall submit to the Agency an explanation as to the reasons for its failure to comply and;

(2) Be governed by the requirements of Section 220d of Article 8 of the Labor Law of the State of New York; and when requested by the Agency, provide to the Agency a plan for an apprenticeship program;

OR

(3) Provide to the Agency a project labor agreement or alternative proposal to pay fair wages to workers at the construction site.

Furthermore, this policy may be waived, in the sole and final discretion of the Agency, in the event that the applicant demonstrates to the Agency special circumstances or economic hardship to justify a waiver to be in the best interests of the Town of Brookhaven.

Adopted: May 23, 2005
SCHEDULE C

RECAPTURE AND TERMINATION POLICY

EFFECTIVE JUNE 8, 2016

Pursuant to Sections 874(10) and (11) of Title 1 of Article 18-A of the New York State General Municipal Law (the “Act”), the Town of Brookhaven Industrial Development Agency (the “Agency”) is required to adopt policies (i) for the discontinuance or suspension of any financial assistance provided by the Agency to a project or the modification of any payment in lieu of tax agreement and (ii) for the return of all or part of the financial assistance provided by the Agency to a project. This Recapture and Termination Policy was adopted pursuant to a resolution enacted by the members of the Agency on June 8, 2016.

I. Termination or Suspension of Financial Assistance

The Agency, in its sole discretion and on a case-by-case basis, may determine (but shall not be required to do so) to terminate or suspend the Financial Assistance (defined below) provided to a project upon the occurrence of an Event of Default, as such term is defined and described in the Lease Agreement entered into by the Agency and a project applicant (the “Applicant”) or any other document entered into by such parties in connection with a project (the “Project Documents”). Such Events of Default may include, but shall not be limited to, the following:

1) Sale or closure of the Facility (as such term is defined in the Project Documents);
2) Failure by the Applicant to pay or cause to be paid amounts specified to be paid pursuant to the Project Documents on the dates specified therein;
3) Failure by the Applicant to create and/or maintain the FTEs as provided in the Project Documents;
4) A material violation of the terms and conditions of the Project Agreements; and
5) A material misrepresentation contained in the application for Financial Assistance, any Project Agreements or any other materials delivered pursuant to the Project Agreements.

The decision of whether to terminate or suspend Financial Assistance and the timing of such termination or suspension of Financial Assistance shall be determined by the Agency, in its sole discretion, on a case-by-case basis, and shall be subject to the notice and cure periods provided for in the Project Documents.

For the purposes of this policy, the term “Financial Assistance” shall mean all direct monetary benefits, tax exemptions and abatements and other financial assistance, if any, derived solely from the Agency’s participation in the transaction contemplated by the Project Agreements including, but not limited to:

(i) any exemption from any applicable mortgage recording tax with respect to the Facility on mortgages granted by the Agency on the Facility at the request of the Applicant;
(ii) sales tax exemption savings realized by or for the benefit of the Applicant, including
and savings realized by any agent of the Applicant pursuant to the Project
Agreements in connection with the Facility; and

(iii) real property tax abatements granted under the Project Agreements.

II. Recapture of Financial Assistance

The Agency, in its sole discretion and on a case-by-case basis, may determine (but shall
not be required to do so) to recapture all or part of the Financial Assistance provided to a project
upon the occurrence of a Recapture Event, as such term is defined and described in the Project
Documents. Such Recapture Events may include, but shall not be limited to the following:

1) Sale or closure of the Facility (as such term is defined in the Project Documents);
2) Failure by the Applicant to pay or cause to be paid amounts specified to be paid
pursuant to the Project Documents on the dates specified therein;
3) Failure by the Applicant to create and/or maintain the FTEs as provided in the Project
Documents;
4) A material violation of the terms and conditions of the Project Agreements; and
5) A material misrepresentation contained in the application for Financial Assistance, any
Project Agreements or any other materials delivered pursuant to the Project
Agreements.

The timing of the recapture of the Financial Assistance shall be determined by the Agency,
in its sole discretion, on a case-by-case basis, and is subject to the notice and cure periods provided
for in the Project Documents. The percentage of such Financial Assistance to be recaptured shall
be determined by the provisions of the Project Documents.

All recaptured amounts of Financial Assistance shall be redistributed to the appropriate
affected taxing jurisdiction, unless agreed to otherwise by any local taxing jurisdiction.

For the avoidance of doubt, the Agency may determine to terminate, suspend and/or
recapture Financial Assistance in its sole discretion. Such actions may be exercised simultaneously
or separately and are not mutually exclusive of one another.

III. Modification of Payment In Lieu of Tax Agreement

In the case of any Event of Default or Recapture Event, in lieu of terminating, suspending,
or recapturing the Financial Assistance, the Agency may, in its sole discretion, adjust the payments
in lieu of taxes due under the Project Agreements, so that the payments in lieu of taxes payable
under the Project Agreements are adjusted upward retroactively and/or prospectively for each tax
year until such time as the Applicant has complied with the provisions of the Project Agreements.
The amount of such adjustments shall be determined by the provisions of the Project Documents.
**SCHEDULE D**

Agency Payment in Lieu of Taxes (PILOT) Policy

An annual fee of $2,000 (plus $500 per subtenant) will be due to the Agency in addition to the PILOT payment to cover ongoing costs incurred by the Agency on behalf of the project.

1. The Town of Brookhaven Industrial Development Agency (IDA) may grant or be utilized to obtain a partial or full real property tax abatement for a determined period. To be eligible for this abatement there would be a requirement of new construction, or renovation, and a transfer of title of the real property to the Town of Brookhaven IDA.

2. The Chief Executive Officer (CEO) or their designee shall consult with the Town Assessor to ascertain the amounts due pursuant to each PILOT Agreement. Thereafter, the PILOT payment for each project shall be billed to the current lessees. The lessees can pay the PILOT payment in full by January 31st of each year, or in two equal payments due January 31st and May 31st of each year of the PILOT Agreement. The CEO or their designee shall send all PILOT invoices to the lessees on a timely basis.

3. The Town of Brookhaven IDA shall establish a separate, interest-bearing bank account for receipt and deposit of all PILOT payments. The CEO or their designee shall be responsible for depositing and maintaining said funds with input from the Chief Financial Officer (CFO).

4. The CEO or their designee shall remit PILOT payments and penalties if any, to the respective taxing authorities in the proportionate amounts due to said authorities. These remittances shall be made within thirty (30) days of receipt of the payments to the Agency.

5. Payments in lieu of taxes which are delinquent under the agreement shall be subject to a late payment penalty of five percent (5%) of the amount due. For each month, or part thereof, that the payment in lieu of taxes is delinquent beyond the first month, interest shall on the total amount due plus a late payment penalty in the amount of one percent (1%) per month until the payment is made.

6. If a PILOT payment is not received by January 31st of any year or May 31st of the second half of the year the lessee shall be in default pursuant to the PILOT Agreement. The Agency may give the lessee notice of said default. If the payment is not received within thirty (30) days of when due, the CEO shall notify the Board, and thereafter take action as directed by the Board.

7. The CEO shall maintain records of the PILOT accounts at the Agency office.

8. Nothing herein shall be interpreted to require the Agency to collect or disburse PILOT payments for any projects which are not Agency projects.
9. Should the Applicant fail to reach employment levels as outlined in their application to the Agency, the Board reserves the right to reduce or suspend the PILOT Agreement, declare a default under the Lease or the Installment Sale Agreement, and/or convey the title back to the Applicant.

10. This policy has been adopted by the IDA Board upon recommendation of the Governance Committee and may only be amended in the same manner.

Part X – Certification

Donghai Chen _____________________ (Name of representative of entities submitting application) deposes and says that he or she is the Member ______ (title) of CD Ramsay Realty, LLC ______, the entities named in the attached application; that he or she has read the foregoing application and knows the contents thereof; and that the same is true to his or her knowledge.

Deponent further says that s/he is duly authorized to make this certification on behalf of the entities named in the attached Application (the “Applicant”) and to bind the Applicant. The grounds of deponent’s belief relative to all matters in said Application which are not stated upon his/her personal knowledge are investigations which deponent has caused to be made concerning the subject matter this Application, as well as in formation acquired by deponent in the course of his/her duties in connection with said Applicant and from the books and papers of the Applicant.

As representative of the Applicant, deponent acknowledges and agrees that Applicant shall be and is responsible for all costs incurred by the Town of Brookhaven Industrial Development Agency (hereinafter referred to as the “Agency”) in connection with this Application, the attendant negotiations and all matters relating to the provision of financial assistance to which this Application relates, whether or not ever carried to successful conclusion. If, for any reason whatsoever, the Applicant fails to conclude or consummate necessary negotiations or fails to act within a reasonable or specified period of time to take reasonable, proper, or requested action or withdraws, abandons, cancels or neglects the application or if the Applicant is unable to find buyers willing to purchase the total bond issue required, then upon presentation of invoice, Applicant shall pay to the Agency, its agents or assigns, all actual costs incurred with respect to the application, up to that date and time, including fees to bond or transaction counsel for the Agency and fees of general counsel for the Agency. Upon successful conclusion of the transaction contemplated herein, the Applicant shall pay to the Agency an administrative fee set by the Agency in accordance with its fee schedule in effect on the date of the foregoing application, and all other appropriate fees, which amounts are payable at closing.

The Applicant hereby subscribes and affirms under the penalties of perjury that the information provided in this Application is true, accurate and complete to the best of his or her knowledge
