# EXECUTIVE SUMMARY

## Project Description

The Town of Brookhaven Industrial Development Agency (Agency) received an application from C and K Development, LLC (Applicant) for financial assistance to construct 45 restricted (55+) apartments. This development will include an affordable housing component consisting of 9 units.

The Project represents a \$22.8 million investment and is anticipated by the Applicant to generate 1.5 full-time permanent jobs within two years. To support this project, the Applicant requests financial assistance through a Payment In Lieu of Taxes (PILOT) agreement.

## Purpose of this Analysis

An objective, third-party review of a project's assumptions and estimated operating and financial performance helps Industrial Development Agencies perform a complete evaluation of a proposed Project. Camoin Associates was engaged to analyze the Project and deliver an analysis and opinion to answer three questions:

- ◆ Are the operating assumptions, such as rent, vacancy, and expenses, within regional norms?
- ◆ Is the assistance necessary for the Project to be financially feasible and, therefore, undertaken by the Applicant?
- ◆ If assistance is awarded, will the Applicant's rate of return on investment be similar to market expectations for similar projects in the region and, therefore, reasonable?

***Findings: This analysis concludes that the answer to each of these questions is as follows:***

- ***Certain assumptions are within norms, such as market rent and vacancy rate. However, operating expenses are more efficient than benchmarks.***
- ***The equity dividend rate benchmark is achieved under both PILOT scenarios. The 17-year PILOT scenario allows for a stronger Equity Dividend Rate and Debt Service Coverage Ratio, all within the standard industry benchmarks.***
- ***Under all scenarios, cash flow is positive. Cumulative cash flow with the PILOT allows for the initial equity investment to be recouped.***

# 1. OPERATING ASSUMPTIONS

The Applicant's operating assumptions are compared to CoStar estimates for rent in 2024 in Suffolk County and key metrics for affordable housing income limits as provided by the U.S. Department of Housing and Urban Development. The ability of households in Suffolk County to afford market-rate, workforce, and affordable apartments is estimated by calculating the income necessary to pay no more than 30% of income on rent.

**Apartment Unit Type, Rent, and Household Income**

| Type of Apartment (1) |     | Number of Units in Project (1) | Average Rent per Month (1) | Rent per Year | Household Income Required (2) | Average Rent for Suffolk County (3) | Affordable Income Limits (4) | Benchmarks      |
|-----------------------|-----|--------------------------------|----------------------------|---------------|-------------------------------|-------------------------------------|------------------------------|-----------------|
| Market                | 2BR | 36                             | \$3,475                    | \$41,700      | \$139,000                     | \$3,348                             | N/A                          | Meets Benchmark |
| Affordable            | 2BR | 9                              | \$2,800                    | \$33,600      | \$112,000                     | N/A                                 | \$92,350                     | NA              |

## 2. PILOT ANALYSIS

The Applicant requested a 17 year PILOT and Camoin Associates created a 15 year PILOT schedule in alignment with the Agency's Uniform Tax Exemption Policy (UTEP). The following tables show the two PILOT schedules.

**PILOT Schedule - 15 Year**

| Year                | Property<br>Without<br>Project (1) | Plus: Improvements                  |                           | Total PILOT<br>(1) | Estimated<br>PILOT Savings<br>(2) | Project w/out<br>PILOT<br>(2) |
|---------------------|------------------------------------|-------------------------------------|---------------------------|--------------------|-----------------------------------|-------------------------------|
|                     |                                    | Projected<br>Improvement<br>Tax (2) | Proposed<br>Exemption (1) |                    |                                   |                               |
| Construction Year 1 | \$32,223                           | \$0                                 | 100%                      | \$32,223           | \$ -                              | \$32,223                      |
| Construction Year 2 | \$32,868                           | \$0                                 | 100%                      | \$32,868           | \$ -                              | \$32,868                      |
| PILOT/Tax Year 3    | \$33,525                           | \$300,750                           | 95%                       | \$48,563           | \$285,713                         | \$334,275                     |
| PILOT/Tax Year 4    | \$34,196                           | \$306,765                           | 90%                       | \$64,872           | \$276,089                         | \$340,961                     |
| PILOT/Tax Year 5    | \$34,879                           | \$312,900                           | 85%                       | \$81,815           | \$265,965                         | \$347,780                     |

(1) Source: Town of Brookhaven, Assumes tax rate for Fiscal Year 2024/2025 of 429.643 and a current assessed value of \$7,500, increasing at 2% rate.

(2) Source: Town of Brookhaven, Assumes a 2% annual increase in the tax rate and a taxable value of \$70,000 upon completion.

15 Year PILOT: The 15-year PILOT agreement will abate 46.5% of the Applicant's taxes, resulting in \$2.3 million in foregone tax revenue (benefit to the Project) to the municipality over the next 15 years. The benefit to the municipality is \$2.1 million, which the municipality stands to gain from the project over a no-project scenario.

17 Year PILOT: The 17-year PILOT agreement will abate 49.7% of the Applicant's taxes, resulting in \$2.9 million in foregone tax revenue (benefit to the Project) to the municipality over the next 17 years. The benefit to the municipality is \$2.3 million, which the municipality stands to gain from the project over a no-project scenario.

| <b>Less: Estimated Taxes without Project</b>                       | <u>(\$557,250)</u>   | <u>(\$644,854)</u>   |
| Estimated New Tax Revenue (Benefits to Municipalities)             | \$2,100,909          | \$2,293,115          |

### 3. OPERATING PERFORMANCE

The project's seventh year of operation (not including two years of construction) is measured, which is the mid-year of the pro forma period studied. The Applicant assumes that gross revenue and expenses will escalate at 2% per year and that there will be a 6% vacancy rate once stabilized, within the range for Suffolk County, NY. Operating expenses are lower than the benchmarks for all scenarios. Without a PILOT, real property taxes absorb 18% of project income, while debt service absorbs 52%, resulting in a positive cash flow of \$207,667. With a 15-year or 17-year PILOT, property taxes absorb 6% of gross operating income and have a positive cash flow of \$451,823. The differences between the PILOT schedules occur after year 7.

## 4. FINANCING PLAN

- ◆ The Sources and Uses of Funds show the total project costs and debt and equity capital structure.
- ◆ The Senior (Long Term) Debt Terms are positive, with bank financing making up 70% of the source of funds, within the industry benchmarks of 55-90%. The annual interest rate for long-term debt is slightly higher than the typical range, and the maturity term is within acceptable limits.

### Sources and Uses of Funds

| <u>Sources of Funds</u>    | <u>Amount (1)</u>  | <u>Share</u> |
|----------------------------|--------------------|--------------|
| Bank Financing             | \$17,500,000       | 76%          |
| Equity and Working Capital | <u>\$5,500,000</u> | <u>24%</u>   |

## 5. RATE OF RETURN

An estimated return on investment is calculated using the Applicant's operating pro forma and capital structure. This analysis measures whether the financial assistance is necessary and reasonable.

Three metrics are used to evaluate outcomes:

- ◆ **The Equity Dividend Rate** is net cash flow for each year, divided by the initial equity investment. Equity Dividend Rates are benchmarked using current market information from RealtyRates.com for similar projects in the region. Equity Dividend Rates close to the benchmarks indicate a Project outcome in line with the current market, which means the Applicant is earning a reasonable return. Very low or negative rates indicate the Project is unlikely to be undertaken if compared to other possible investments. Equity Dividend Rates are based on an initial equity investment of \$5,500,000. **The average equity dividend rate meets the low end of the benchmark under all scenarios, but with the PILOT it is able to achieve an average that is closer to the midpoint of the benchmark. The 17-year PILOT allows for a stronger return than the 15-year PILOT.**
- ◆ **Cash Flow** shows the applicant's net cash flow over time. There are currently no cash flow benchmarks available. **Cumulative Cash Flow is positive for the PILOT scenarios and sufficient to recoup the initial investment of \$5.5 million within 15 years.**
- ◆ **Debt Service Coverage** estimates how well the Project's net income, after taxes, supports debt repayment. **In year 1, Debt Service Coverage exceeded the benchmark under all scenarios. The 17-year PILOT achieves a higher average coverage.**

## APPENDIX A: SCOPE OF SERVICES

To assist with its evaluation of the Applicant's request for financial assistance, Camoin was commissioned by the Town of Brookhaven Industrial Development Agency to conduct the above analyses. The analysis is comprised of four tasks:

- ◆ *Test Assumptions* by comparing rents, operating costs, and vacancy rates to real estate benchmarks for similar projects and noting any significant differences. Operating performance and net income are also evaluated.
- ◆ *Review the Financing Plan* and perform an objective third-party evaluation of the estimated return on investment (ROI) to the Applicant with and without a PILOT agreement. We also analyze whether the capital structure and terms of the long-term debt are within market benchmarks for obtaining bank financing.
- ◆ *Evaluate the effects of one or more PILOTs* recommended by the Agency and determine whether the PILOT would result in a return that is within what would normally be anticipated in the current market for a similar project.
- ◆ *Provide an objective, third-party opinion* about the need for and reasonableness of the financial assistance.

### *Sources Consulted*

- ◆ Application for Financial Assistance dated 7/7/2025.
- ◆ Project financing and annual cashflow workbook submitted by the Applicant on 9/4/2025 and 9/12/2025.
- ◆ Assessed value estimates provided by the applicant in the cashflow workbook.
- ◆ Real estate tax information and estimates received from the Agency, including anticipated future assessed value of the Project.
- ◆ CoStar
- ◆ RealtyRates.com

CoStar is the leading source of commercial real estate intelligence in the U.S. It provides a full market inventory of properties and spaces—available as well as fully leased—by market and submarket. Details on vacancy, absorption, lease rates, inventory, and other real estate market data are provided, as well as property-specific information including photos and floor plans. More at **[www.costar.com](http://www.costar.com)**.

RealtyRates.com™ is a comprehensive resource of real estate investment and development news, trends, analytics, and market research that support real estate professionals involved with more than 50 income producing and sell-out property types throughout the U.S. RealtyRates.com™ is the publisher of the award-winning Investor, Developer and Market Surveys, providing data essential to the appraisal, evaluation, disposition and marketing of investment and development real estate nationwide.

## APPENDIX B: DEFINITIONS

**Equity Dividend Rate:** This is calculated as the rate of return on the equity component of a project. It is calculated as follows: (Source: RealtyRates.com)

$\text{Equity Dividend} / \text{Equity Investment} = \text{Equity Dividend Rate}$ , where  $\text{Equity Dividend} = \text{Net Operating Income} - \text{Debt Service}$ .

**Debt Service Coverage Ratio (DSCR):** The ratio of annual debt repayment, including principal and interest, to total Net Operating Income (NOI). (Source: RealtyRates.com)

**Net Operating Income (NOI):** Income net of all operating costs including vacancy and collection loss but not including debt service. Appraisers also typically expense reserves for repairs and replacements. However, because reserves are not usually reported along with other transaction data, RealtyRates.com tracks lender requirements but does not include them in calculations. (Source: RealtyRates.com)

## ABOUT CAMOIN ASSOCIATES

Camoin Associates has provided economic development consulting services to municipalities, economic development agencies, and private enterprises since 1999. Through the services offered, Camoin Associates has had the opportunity to serve EDOs and local and state governments from Maine to California; corporations and organizations that include Lowes Home Improvement, FedEx, Amazon, Volvo (Nova Bus) and the New York Islanders; as well as private developers proposing projects in excess of \$6 billion. Our reputation for detailed, place-specific, and accurate analysis has led to projects in 32 states and garnered attention from national media outlets including Marketplace (NPR), Crain's New York Business, Forbes magazine, The New York Times, and The Wall Street Journal. Additionally, our marketing strategies have helped our clients gain both national and local media coverage for their projects in order to build public support and leverage additional funding. To learn more about our experience and projects in all of our service lines, please visit our website at [www.camoinassociates.com](http://www.camoinassociates.com).
